[Docket Number FRA-2014-0087]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated September 5, 2014, Rouge Valley Terminal Railroad Corporation (RVTC) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 223, Safety Glazing Standards—Locomotives, Passenger Cars and Cabooses. FRA assigned the petition Docket Number FRA-2014-0087.

RVTC petitioned for a waiver of compliance for one locomotive from the requirements of 49 CFR 223.11, *Requirements for existing locomotives*, that requires certified glazing in all locations. The subject locomotive is a leased Electro-Motive Diesel Model SW1200 locomotive built in 1949 and bearing the number WRIX 82. This locomotive is operated over 9.5 miles of RVTC track and 2 miles of Central Oregon and Pacific Railroad track (for interchange of freight cars), all within the Medford Industrial Park in White City, OR. Speeds do not exceed 10 mph. It is equipped with glazing that meets an ASI rating of AS-1. This locomotive has been operating over the same trackage under a glazing waiver per Docket Number FRA-2005-23332, issued to former operator White City Terminal and Utility Railway, for the last 8 years with no incidents of

vandalism to the glazing or any other railroad property. This new waiver petition was necessitated by a change in corporate ownership. RVTC also cites economic conditions in its request to continue use of the locomotive as presently equipped.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Avenue, S.E., W12-140, Washington, D.C. 20590.
